Casa Bonay

Our Commitment + Results, 2023

Our Commitment

At the heart of Casa Bonay is the desire to make a positive difference for our guests, our community, and the planet. We are committed to integrating climate action, social well-being, and cultural heritage in our areas of influence to alleviate our footprint. For Casa Bonay this commitment is and will be an ongoing journey where we can only hope to do better every day. With transparency and honesty, we share our actions for 2023 in the hopes for a more responsible and conscious tourism activity.

Aligned with the United Nation Sustainable Development Goal (SDG) https://sdgs.un.org/goal), our sustainable activity for 2023 will be focused on the following goals.

- Climate Action
- Responsible Consumption & Production
- Good health & Wellbeing
- Decent work & economic growth

For which we have designed our actions for 2023 with four different approaches that together define our DNA:

1. Climate Actions
2. Employee engagement
3. Guest engagement
4. Community engagement.

1. Climate Action

Our planet is our home, and we are all about making people feel at home. We want to make sure it is clean, healthy, and enjoyable.

To be able to take significant action, we must first understand what our current impact is and thus be able to set mitigation objectives. As of 2023, we are firmly committed to understanding our carbon footprint at a second scope to set achievable reduction objectives through responsible tourism practices.

Actions:

- Measure our carbon footprint 2021 & 2022 at a Scope 2.
- Set SMART objectives for 2023 & 2024 to optimize our consumption using 2022 as our base year.
- Increase our percentage of local, proximity and seasonal products suppliers in all food and beverages menus. (2023)
- Incorporate chemical free cleaning products in our cleaning services. (2023)
- Segregate guest waste by including waste separator in rooms and shared spaces.
- Management of restaurant waste.
